

BACKTRACK

BACKTRACK gives you the flexibility to handle all of your tracking needs – today and in the future.

BACKTRACK's asset and inventory tracking software gives you the power to track the exact location, movement, and usage of any item accurately and efficiently. From file tracking to inventory control to tool and equipment tracking, there are no limits to the number or type of tracking applications that BACKTRACK can handle.

BACKTRACK Business Benefits:

- **Flexible All-in-One Tracking Solution** – BACKTRACK is an all-inclusive tracking solution that leverages barcoding technology to track your assets and inventory.
- **Powerful Reporting Offers Indepth Insight** – Use BACKTRACK's pre-defined reports or create your own using its wizard-driven or advanced report designer mode.
- **Easy Label Creation Makes Tracking Simple** – BACKTRACK works seamlessly with TEKLYNX label design software, allowing you to create labels that meet the most common compliance standards and labeling requirements.
- **Customizable Security Standards Meet Your Needs** – BACKTRACK offers multi-level password protection to meet rigid compliance standards, or it can be disabled for everyday inventory control.
