

Introduction

The Scangle SGT- 1503 15 inch touch screen monitor has been specially developed to provide you with the best angle for both viewing and interaction. The sliding-tilt stand allows you to easily and smoothly adjust the screen's slant up to 80 degrees and find your perfect perspective for comfortable viewing as well as convenient touch usage. Thanks to ergonomic design, you can minimize bad posture or wrist strain and make the most of the SGT1503 great picture quality and touch interaction. Get the best view from any angle with the SGT1503. Unlike conventional touch screen monitors, this has an extra wide viewing angle, vertically and horizontally. The wider angle allows you to have the same picture quality from any front angle view.

Feature

- Hardness touch screen surface.
- Solid base
- Foldable stand
- High contrast ratio

Specification

Size of LCD Panel	15"LCD TFT
Max Resolution	1024x768@75Hz
Contrast Ratio	450/1
Brightness	250CD/m2
Viewing Angle	H: 150° V: 120°
Response Time	4/12ms
Starting interface	VESA Standard
Displaying Color	16.7M
Input Voltage	AC 100-240V 50/60Hz
Power Consumption	< 30W
Input port	USB+VGA
Dimension	364*53*304mm
Package Dimension	430× 190× 410mm
N. W/G. W	4.5kg/7.0kg
Certification	FCC, CE, FCC, CE, UL, TCO99
Touch screen type	5 Wire Resistive touch screen
Surface Hardness	3H
Optical Clarity	80%
Operating Temperature	-10° C ~ 60° C
Operating Voltage	DC5V
Operation Pressure	80 ~ 120g
Storage Temperature	-20° C ~ 70° C
