SRP-275

IMPACT RECEIPT PRINTER

High-Speed Two-Color Impact Printer For PC or POS Systems

Samsung mini-printers are an exceptional value, providing advanced features, lower initial cost and legendary dependability. Using industry standard emulations, they are easy to integrate and are already certified with many popular POS applications.

The affordable and easy-to-use SRP-275 produces either receipts or kitchen orders faster than any other popular impact printer. Featuring trouble-free drop-in paper loading, it is adjustable to accommodate 76, 69.5, or 57.5mm paper rolls. Print is clear and precise, allowing you to print distinctive receipts with barcodes, coupons, rebates and specials. User defined graphic logos are easily downloaded with Samsung's free utility software.

In your kitchen, you can print condiments or special instructions in red ink for easy identification. When space is an issue, you can mount your SRP-275 directly on a wall in a convenient location – requisitions can be read right-side-up, as they are issued from the printer. Orders won't be overlooked in a noisy, fast paced kitchen – a standard internal buzzer can be set to sound as they are printed.

- Drop and Print Paper Loading
- Internal/External Power Supply
- Two-Color Red/Black Printing
- Fast 5.3 Line per Second Printing
- Wall Mountable
- Supports Multiple Paper Widths
