

UHF RFID reader chip family, based on award-winning technology acquired from Intel Corporation.  
Deliver an easy path to worldwide regulatory compliance with support for EPCglobal Gen 2 and ISO-18000-6C specifications, regional regulatory requirements and the full 840-960 MHz band  
Incorporate complete UHF Gen 2 standard transmit, receive, demodulation, and baseband functions  
Deliver a robust architecture that enables optimization for a variety of applications

**Card Dissection**

Chip type:	G2XM
Dimension:	54mm x 86mm x 0.8mm
Material:	PVC
P/N:	RFI00003
