Introduction

Point of sale (also called POS or checkout, during computerization later becoming electronic point of sale or EPOS) is the place where a retail transaction is completed. It is the point at which a customer makes a payment to the merchant in exchange for goods or services. At the point of sale the retailer would calculate the amount owed by the customer and provide options for the customer to make payment. The merchant will also normally issue a receipt for the transaction.

Feature

Steady stand design

Fast start up OS

Adjustable view for user comfort

Smooth touch screen reaction

Fast launching application

Specification

Model No	SGT-662 POS
Name	15' touch POS system
Mainboard	Intel Professional Industrial POS Main Board
CPU	Dual-core INTEL CELERON 1.8Ghz Fanless
Resolution	1024x768 colour LCD TFT
Memory	DDR3 2GB
Hard Disks	SSD 64GB
Screen	5-wire resistance touch screen
Operating System	Windows 7 PROFESSIONAL OEM
Interface	4 * USB interface
	1 * PS / 2 mouse & 1 * keyboard connectors
	1 * RJ-45 Internet interface
	2 * audio I/O interface (a microphone and line output)
	1 * VGA interface;
	1 * COM interface
	1*HDMI port
	1 * 12 V DC input
Humidity	20% -80% relative humidity
Operating Temperature	0 ° C-40 ° C
Dimensions	25.6cm x 27.5CM x 36.5CM
