

AGen Retail Consignment Recording System

“Record Every Item. From Supplier to Shelf, From Shelf to Supplier.”

Commonly used for:

 Bread |  Bottled Drinks |  Books & Magazines

INDUSTRY PROBLEMS

Common Consignment Challenges in Retail

Bread (Short Shelf Life)

Expired items not recorded properly

Daily returns not tracked accurately

Supplier disputes on unsold quantity

Bottled Drinks (High Volume)

Fast-moving stock hard to monitor

Missing items during restocking

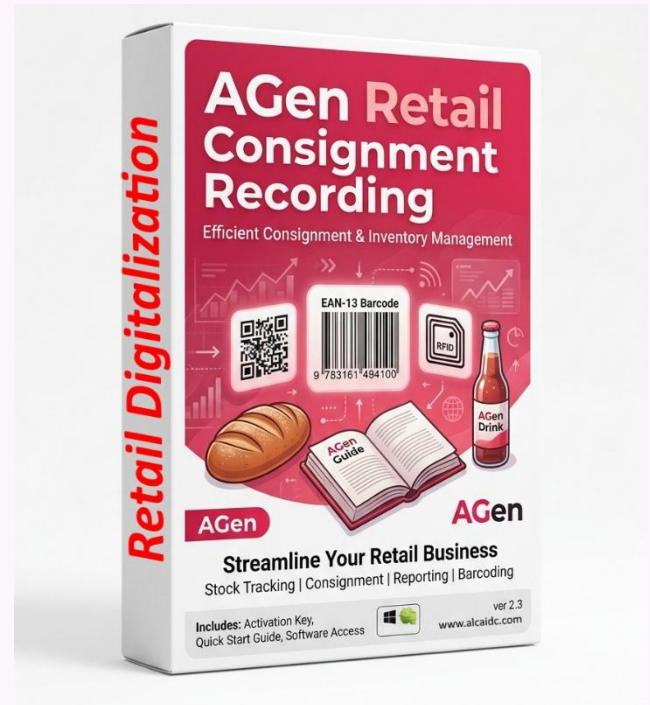

No batch tracking for promotions

Books & Magazines (Consignment-Based Sales)

Unsold copies not properly returned

Manual recording errors

No clear sales vs return record

Result:

Stock loss, inaccurate reporting, and profit leakage.

OUR SOLUTION

Digital Consignment Receiving and Returning Recording System

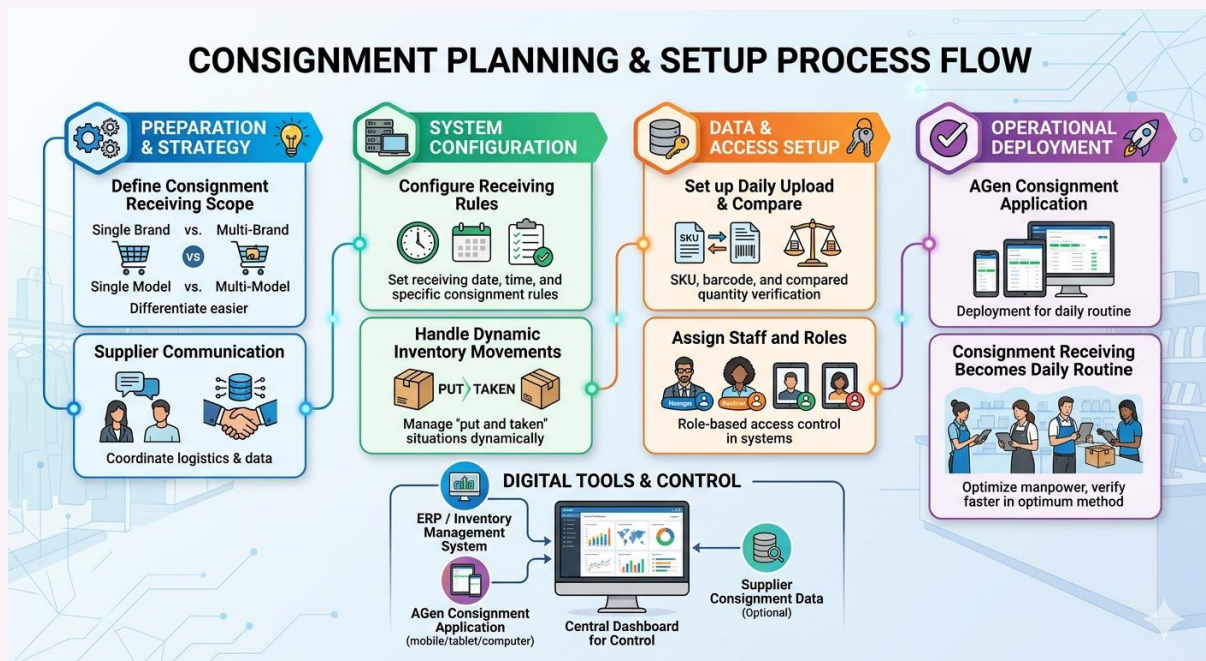

A smart system to capture every movement of consignment goods in real-time.

Core Functions

-  Consignment Goods Receiving (Scan & Record)
-  Consignment Return / Expiry / Damage Tracking
-  Barcode Scanning via Mobile Device
-  Real-Time Dashboard
-  Batch / Date / Issue Tracking
-  Centralized Cloud Data

HOW IT WORKS

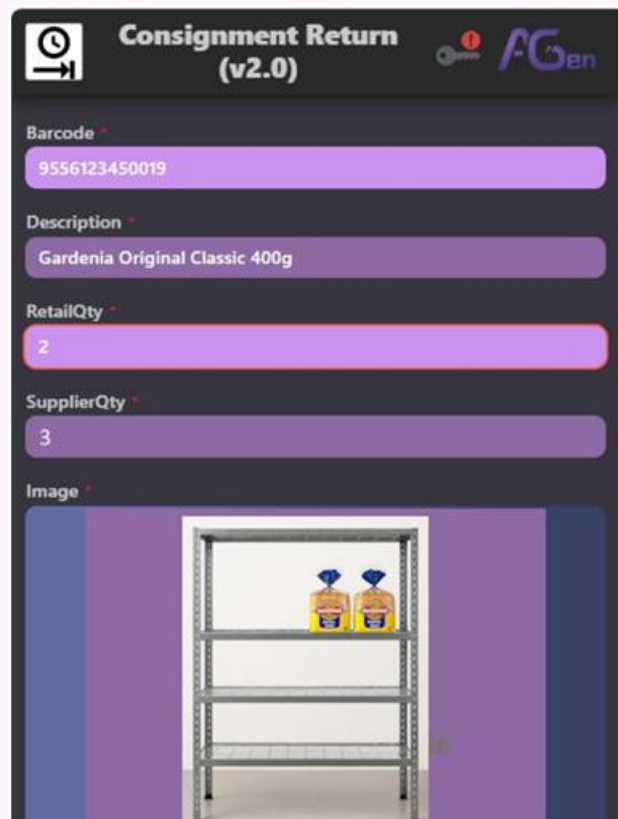

- Designed for Retail Daily Operations
1. Receive Stock
Scan bread trays, drink cartons, or magazine bundles
 2. Shelf Monitoring
Track expiry (bread), stock levels (drinks), and sales (magazines)
 3. Record Returns
Capture unsold / expired / damaged items instantly
 4. Auto Reporting
Generate supplier reports with zero manual counting

KEY BENEFITS

Why Retailers Choose Our System

- ✓ Accurate Daily Consignment Received and Returns Recording
- ✓ Control High-Volume Consignment Inventory
- ✓ Clear Consignment Sales Tracking
- ✓ Eliminate Manual Recording Errors
- ✓ Faster Stock Reconciliation
- ✓ Reduce Supplier Disputes
- ✓ Improve Staff Productivity

REAL USE CASE

In Your Store, Every Day

- 👤 Supervisor checks bread expiry → scans & records return
- 👤 Staff receives drink stock → scans carton barcode
- 📦 Magazine returns → recorded & matched with supplier invoice
- 👉 Everything is tracked. Nothing is missed.
