**AGen**

Smart. Accurate. Reliable.

What is Agen Packing Verification Software?

AGen Packing Verification Software is a smart solution designed to ensure accuracy and efficiency in the packing process. It helps businesses reduce errors, prevent shipment issues, and improve customer satisfaction.

Features:

1. **Barcode & QR Code Scanning** – Fast and precise item identification.
2. **Real-Time Inventory Integration** – Seamless stock updates.
3. **Weight Verification** – Ensures correct item packing.
4. **Image Capture**– Visual confirmation of packed items.
5. **Audit Trail & Reporting** – Complete traceability and compliance.

Benefits

- Minimize packing errors and returns
- Improve operational transparency
- Enhance customer trust and satisfaction
- Streamline warehouse workflows
- Ensure compliance with industry standards
