

AGen Self-Service Price Checker Software

Empower Customers. Reduce Staff Workload. Improve Shopping Experience.

What Is It?

AGen Retail Price Check Software allows retailers to install a self-service price checking system on in-store price checker kiosks or terminals.

Customers can easily scan an item's barcode to instantly view **price, promotions, and product details** — without waiting for staff assistance.

How It Works

1. **Customer scans the barcode** using a price checker device
2. **Software retrieves item data** from your ERP or inventory system
3. **Price and item information are displayed immediately**
4. Customers make confident purchasing decisions — faster

Key Benefits for Retailers

✓ **Improve Customer Experience**

Customers get instant price information anytime — fewer frustrations.

✓ **Reduce Staff Interruptions**

Staff spend less time answering price inquiries and more time serving customers.

✓ **Increase Sales Confidence**

Clear pricing helps customers proceed to checkout with confidence.

✓ **Professional Store Image**

Modern self-service technology enhances your brand image.

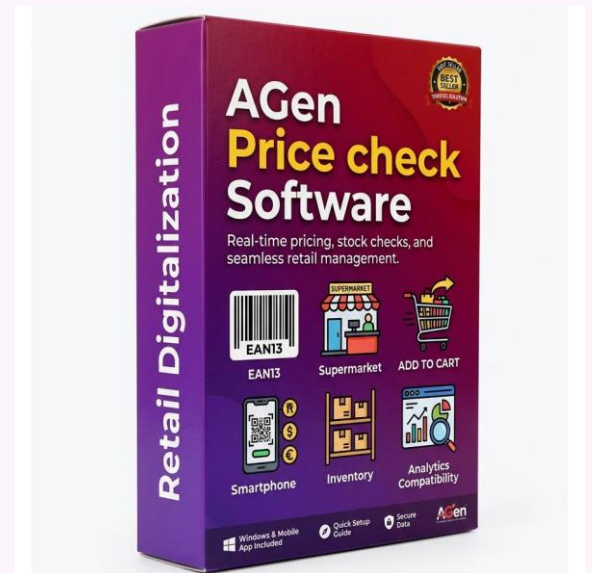

✓ **Fewer Price Disputes at Checkout**

Accurate price checks reduce misunderstandings and complaints.
