

INSTANT CARD PRINTING WITH SELF-SERVICE TERMINALS

PRINTERS FOR SELF-SERVICE KIOSKS: FOR AN OPTIMAL USER EXPERIENCE.

More and more sectors are seeing the benefits of self-service terminals. **This trend is consistent with the new expectations of consumers** and particularly with their need for immediacy. They expect the service they are accessing to be provided **as quickly as possible**.

But that's not all—**for a customer's experience to be optimal, it must be complete. This is also true in the area of issuing cards**, whatever kind they may be (bank card, loyalty card, student card, access card, etc.), and where card printers for self-service kiosk terminals shine.

INCREASE POINTS OF CONTACT AT A LOWER COST

IMPROVED USER SATISFACTION

Increase the quality of service offered to customers or members.

- Offer an **immediate and easily accessible service**

Cards are personalized and issued to cardholders 24/7, regardless of business hours.

- Give the **option of personalizing cards**

Users can easily select the design of their card on the terminal, or even use a personal photograph.

- **Reduce waiting times**

Your contacts receive their card right away, without having to wait in line at the counter or for it to be mailed to them.

MAXIMUM RETURN ON INVESTMENT

Streamline operating costs and reach more consumers.

- **Optimize personnel costs**

The terminal frees up your employees' time so they can focus on tasks with a higher added value.

- **Limit maintenance costs**

The notification system, combined with the large capacity of the feeders and consumables, optimizes maintenance operations.

- **Generate additional revenue**

When a customer gets their card immediately, they are more likely to use it right away. They benefit immediately from the services associated with the card.

- **Project a modern & distinctive image**

The fact that you can get a card without waiting is perceived very positively by customers and allows you to stand out from competitors.

A WIDE RANGE OF DEDICATED PRODUCTS TO MEET ALL NEEDS.

KC RANGE Compact Models

KC Essential

The **most compact and modular solution** to meet your integration and personalization needs.

KC Prime

Our ready-to-integrate printer model, with a **200-card feeder**.

KC Max

A printer optimized to accommodate **four 100-card feeders** while remaining compact.

KM RANGE High Autonomy Models

KM500B

A **high capacity 500-card feeder** to handle unique card designs.

KM2000B

Four 500-card feeders to autonomously manage up to 4 different card designs.

A KIOSK PRINTER FOR EVERY NEED
