

PM86

EMPOWER YOUR BUSINESS WITH WI-FI 6—FEATURED IN THE TRULY RUGGED MOBILE COMPUTER

Enhanced performance for heavy business solutions

Maintaining a similar look to its popular predecessor PM85, the PM86 comes with upgraded internals for smoother operations. Powered by a 2.0 GHz octa-core Qualcomm processor and 4 GB/64 GB memory, PM86 runs the latest, intensive solutions on Android 11 smoothly. The 4,080 mAh battery ensures all-day operation, while businesses can choose a 5,800 mAh extended battery for more intensive operation. The dual front-facing speaker invites you to clear communication even in a noisy work environment. The three 1D/2D scan engines have been tested, tuned, and optimized to work seamlessly with PM86 and capture data fast and accurately.

High-speed yet reliable wireless connection

Wi-Fi 6 technology empowers your workforce with faster, more secure, and more reliable data transfer. The 2x2 MU-MIMO significantly enhances each access point within the workplace. Optional LTE allows your employees to remain connected and go anywhere they need to.

Purpose-built features for the enterprise environment

Through a meticulous designing and testing process, the PM86 has been refined to deliver an exceptional user experience. The back cover and the battery now comprise one integrated part, contributing to increased safety and robustness, and offering a simpler on-the-spot replacement process. The BLE Beacon transmits signals for up to 20 days after the device is switched off and even without the main battery, simplifying device management. Enterprise Hot-Swap keeps the screen on during battery replacement and activates the countdown timer for a shutdown.

Efficiency through backward compatibility and lasting durability

PM86's backward compatibility with PM85 charging cradles* minimizes the cost, while you can still choose a new and improved set of optional accessories including different types of charging cradles, a gun handle with a scan trigger, and a brand-new UHF RFID reader. It is a truly rugged device that withstands multiple drops from 2.0 m (6.6 ft.) to the concrete floor with the Rugged Boot and 1.5 m (5.0 ft.) without, and has IP67 and IP65 rating dust and water resistance, further decreasing the overall downtime and the cost.

With STD battery 157.5 x 78.0 x 19.6 mm
6.2 x 3.1 x 0.8 in.
With EXT battery 157.5 x 78.0 x 24.2 mm
6.2 x 3.1 x 1.0 in.

Weight

With STD battery 287.1 g/10.1 oz.
With EXT battery 315.1 g/11.1 oz.

Display

5.0" IPS panel (1080 x 1920 pixels), FHD LED backlight
Daylight readable (more than 500 nits)
Multi-touch capacitive
Corning Gorilla Glass

Power

Standard battery 3.8 V, 4,080 mAh Li-ion rechargeable
Extended battery 3.85 V, 5,800 mAh Li-ion rechargeable
Back-up battery 3.7 V, 60 mAh (10C), Enterprise Hot-Swap

Key & buttons

Right Volume, scan
Left Power, scan

Voice and audio

Two built in microphones (noise-canceling)
Dual speaker on front side (output max. 100 dB)
Receiver and headset Jack (3.5 mm)
Bluetooth headset support
PTT support

Standard communications

High speed USB 3.0 Type-C
POGO 8 pin

Notification

2 x dual LEDs for power and warning indication, vibration, beep

GLOBAL NAVIGATION SATELLITE SYSTEM

WiFi SKU: No GNSS
Phone SKU: Qualcomm GNSS
GNSS receiver support for GPS, A-GPS, GLONASS, Galileo, and Beidou

ENTERPRISE SOLUTION

PMDM
Simple yet powerful management solution

PMDM is a mobile device management solution for managing and monitoring your Point Mobile Android devices. Centralized management of enterprise devices is vital for better productivity. You should provide a device configuration that the workers can concentrate on their work with the device, and also decrease the device downtime by predicting when to replace the battery, etc.

EmKit
Enterprise Mobility Kit

The EmKit™ is Point Mobile's value-added service kit engineered for the pure benefit of system integrators. EmKit supports the utilization, solution development, and secure management of your business devices.

PULS – ANDROID UPDATE & SECURITY

PULS is a Point Mobile's lifetime solution, which extends the life cycle of Android-based Point Mobile enterprise devices to up to seven years after a product launch.

PULS
Patches, updates & Lifetime Support

Stay up-to-date with the latest updates for 7 years
PULS comes free of charge for security patches & updates
Get the latest Android version and its newest features
Conveniently update your devices in the field by FOTA
