PRN 16 - 01 • January 18, 2016

Honeywell Announces Replacement Plan for Voyager 1250g, 14XXg and Xenon 190Xg Stands

This notice serves as formal announcement of a replacement plan for certain modular stands used with Honeywell Voyager and Xenon scanners. The modular stands being replaced include both rigid and flexible versions of various heights, both cup and cradle mounts, as well as weighted and non-weighted bases. These stands are being replaced as we transition to a new vendor. The stands from the new supplier will be form, fit, and functionally equivalent to the stands being replaced -- although there may be some slight color differences.

Replacement Part Numbers

SKU Retirement: The following Retired Part Numbers will no longer be available for resale in accordance with the Service Timeline (shown below).

This announcement attempts to identify all standard SKUs being replaced. It is possible that some custom SKUs may not be shown in the list below. Honeywell reserves the right to include omitted SKUs affected by this retirement, even if the SKU is not specifically listed in this notice. Those omitted SKUs are subject to the terms specified within this document. If you are unsure of a specific part number, please contact your Honeywell representative.

PRODUCT NAME	RETIRED PART NUMBER	REPLACEMENT PART NUMBER	DESCRIPTION

PRODUCT RETIREMENT NOTICE

Impacted Scanning Kits

Scanning Kits that previously included one of the aforementioned retired stands will be updated to the new replacement stand. This retirement notice attempts to identify all Scanning Kit part numbers impacted by the retirement of the current stands listed above. However it is possible that some custom Scanning Kit part numbers may not be included in this notice. Honeywell reserves the right to include omitted Scanning Kit SKUs affected by this retirement, even if the SKU is not specifically listed in this notice. Those omitted Scanning Kit SKUs are subject to the terms specified within this document. If unsure of a specific Scanning Kit SKU, please contact your Honeywell representative for clarification.

Stock Rotation Request	Honeywell will not accept requests for stock rotation after this date	February 1, 2016
Stock Rotation Return	Honeywell must receive all final stock rotated units by this date	April 29, 2016

Best Practices - Preparing for Service Retirement

- **Plan** – Proactively plan a technology refresh. The earlier you plan, the easier it is to protect your current assets, budget for the future and adopt new technology.
- **Protect** – Purchase a service contract (when available) that will protect your mission critical assets and your bottom line by providing predictable repair costs, preventative maintenance and updates to software and firmware.
- **Extend** – Extend your current contract (if possible) and manage your assets to the end of their useful life.

PRODUCT RETIREMENT NOTICE

Service Section

Due to the nature of the product, service contracts and non-warranty repairs are not offered on these stands. Products will be supported for the duration of the 90 day factory warranty Service Timeline

Announcement	Timeline	Date
