## Login Page

**Step 1:** Open any browser.

**Step 2:** Enter the URL (<http://localhost/ATP/Login.aspx>)

**Step 3:** Key in your ID and password.

The screenshot shows a login form with a light blue background. At the top, it says "Please Login". Below this, there are two input fields. The first is labeled "User Name /Email ID :" and has a red "256" next to it. The second is labeled "Password :" and has a red "128" next to it. Below the password field, there is a checkbox labeled "Remember Me Next Time." and a "Log In" button with a user icon.

Please Login

User Name /Email ID :  256

Password :  128

☐ Remember Me Next Time.

 Log In

### **Error message:**

Logging in with the wrong password for more than 5 times will automatically lock.

### **Solution:**

Contact admin for unlock.

## Home (Menu)

### 1. Asset Master

- Create a new item.
- Monitor the history of the items.

### 2. Receiving

- A confirmation item has been received from the supplier.
- Put the item in a specific location.

### 3. Check Out

- Providing loan items to specific customers.

### 4. Check In

- Items received have been returned from a specific customer.

### 5. Transfer

- Transfer items from location to another location.

### 6. Write Off

- Identify items that must remove from the system for damage.

Home menu type will show change password.

If you wish to change password, click this button.

Fill in the old password and new password.

## **Welcome to Autotrack password change page: admin**

**Change Password**  
Old Password:  128  
New Password:  128  
Confirm New Password:  128

## Startup Message

## Developer Message

Developer message for displaying messages on the login page.

## Developer Message

The screenshot shows a web editor interface. At the top, there is a 'SAVE' button. Below it is a toolbar containing various icons for editing and formatting, including a 'Normal' dropdown, a font family dropdown (currently showing 'Arial'), a font size dropdown (currently showing '(Font Size)'), and buttons for bold, italic, underline, strikethrough, bulleted list, numbered list, indent, outdent, link, unlink, image, table, search, and print. Below the toolbar is a large text area. At the bottom, there are three tabs: 'Design', 'HTML', and 'Preview', with 'Design' currently selected.

## Change Logo

Change the logo that shows the top title logo.

## Reset Database

Reset database

1. Fully database reset all database from SQL server. (Do not choose this option to reset).
2. Transaction reset is deleting all data related to transaction.
3. Reset to first time setup.

## Reset DataBase

☒ Fully Database Reset  
☐ Transaction Reset  
☐ Reset To Startup

Reset

## User Information

User information

1. Password complexity.
2. Update password attempt and logout.
3. Wrong password attempt.
4. Auto log off.
5. Deactivate user days.

Password Complexity		✓	User Information	
Update Passwordattempt and Logout		✓	If checked, the password should be Alpha, numeric and special character combination. If unchecked, the password will accept any type of text	
Wrong password Attempt	3		Warning!!! User will be locked , more than the mentioned times of login.	
Auto Log Off	15		The user will be logged out automatically when the user not performing any action in the autotrack till the mentioned time.	
Deactive User Days	90		If day is Zero Useraccount will be not Deactivated, User will be deactivated automatically when user not logged in before the mentioned day	
SAVE				

## Database archive

Database archive

To set an archive date for database log.  
Can only choose the later days.

## DataBase Archive

Select Date dataBase Archive

DataBase will be automatically archived untill the mentioned date

SAVE

## Backup restores

To backup Autotrack whole folder include database.

Due to Live server and DB server is separate, unable to do database backup.

Restore only for (DB).bak file.

Backup Folder:

Backup FileName:  The user will be logged out automatically when the user not performing any action in the autotrack till the mentioned time.

AutoBackup: ☐

Start Time:

Repeat After:  Hours

If checked, the password should be Alpha, numeric and special character combination.

Backup File (.zip) :

Restore To Location:
