

Edikio plus all-in-one printing solutions

Getting up to speed with Online Edikio Guest is quick and easy. Everything is included to enable you to create and print your labels soon after you open the box. Each package includes:

- **Online Portal for feedback** – Mobile portal for customer to feedback comment on food.
- **A card and badge printer** – compact and easy to install.
- **Online Portal software** – (Plus version, depending on the printer model), designed for intuitive creation of personalized cards and badges, with numerous ready-to-use templates and icons.
- **Consumables** – for your first prints: a printing ribbon and PVC cards.

Edikio plus solutions are available in online models.

clean surfaces

Agen Saas Food

Buffet Food Label Cards and Display Tags

With Edikio Plus, harmonize your buffet labels and food signs to strengthen your establishment's brand image.

Our printing solutions allow you to fully customize your buffet food labels — from the information displayed (dish names, translations, allergens) to their appearance (choice of card material, color, size). You control every detail to create the perfect food tags for buffet presentation.

Each product has its place, and every label becomes a valuable source of information, contributing to your professional and flawless image.

Yellow Noodle Soup

Soup-based dish with yellow noodles, vegetables, and meat or seafood.
