

Product Update Notice

PUN # 14 - 15

July 31, 2014

Honeywell announces the release of 70 Series Refresh Updates for the CK70, CN70, and CN70e

This notice serves as formal communication that new configurations of Honeywell Scanning & Mobility's 70 Series mobile computers have been released to manufacturing.

Update Details:

The 70 Series Refresh product enhancements are now available. These specific enhancements include;

- Improved display – with better image quality, viewability, and lower power consumption.
- Improved keypad ergonomics – tactile feedback for more input confidence while maintaining the same indestructible laser-etched keys.
- Improved scan window durability – added scratch-resistant coating to provide better protection against abrasives.

Current 70 Series SKU's will continue to be offered as customers transition to the new 70 Series Refresh SKU's. A separate product notice will be published at a later date regarding the retirement of current 70 Series SKU's. New SKU's for the released 70 Series Refresh configurations are listed below and are available in the August 2014 Pricebook.
