ANNOUNCING THE QUICKSCAN™ DESK QD21X0 OBSOLESCENCE

Overview

With the introduction of advanced technology in recent new QuickScan™ product launches, Datalogic is announcing the **obsolescence of the QuickScan Desk QD21X0 scanner.**

To replace this older model, **Datalogic highly recommends migrating customers to the [QuickScan™ QD2131 linear imagers.](#)** Datalogic will be able to deliver a better price performance product to meet customer needs with the newer QD2131 imager, just launched in September of this year.

The newer QuickScan QD2131 linear imager has improvements in the following features:

- Longer Depth of Field (DOF)
- Wider Field of View (FOV)
- Longer, sharper and brighter scan line
- Better look and feel (same as the QuickScan 2D QD2400)
- Shared peripherals (accessories) with the QuickScan 2D QD2400 product family

Datalogic believes that most of the current QuickScan Desk QD21X0 customers should be able to migrate into this new QuickScan Desk platform, with the exception of customers who require the Legacy IBM Port 9/5 interface options. The new QD2131 product will not have support for this interface. If customers need to deploy the Legacy IBM Port 9/5 interface in their applications, they should be encouraged to migrate to the premium Gryphon™ GD4110 platform.

For more information about the QuickScan QD2131 linear imagers, please refer to Product Bulletin [PB20150921](#).

Migration Path

QuickScan QD21X0 corded migration to Gryphon GD4110 corded models:

QUICKSCAN QS2110 MODELS		GRYPHON GD4110 MODELS	
QuickScan I QD2110, Linear Imager, IBM/OEM USB/ RS-232 Multi-Interface, Black	QD2110-BK	Gryphon I GD4110, Linear Imager, IBM46xx/IBM USB/RS-232 Multi-Interface, Black	GD4110-BK
QuickScan I QD2110, Linear Imager, IBM/OEM USB/ RS-232 Multi-Interface, White	QD2110-WH	Gryphon I GD4110, Linear Imager, IBM 46xx/IBM USB/RS-232 Multi-Interface, White	GD4110-WH

QuickScan QD21X0

QuickScan QD21X0 corded migration to QuickScan QD2131 corded models:

For customers who are using the custom special model of QD21X0 readers, please submit an SPR (Special Product Request) form to Datalogic to create the custom model of the QD2131 imager. Please have this submission done as soon as possible to avoid any product delivery gap.

Product Obsolescence Critical Dates

LAST TIME TO PURCHASE	LAST SHIPMENT	LAST SERVICE
March 31, 2016	May 13, 2016	May 30, 2021

With the exception of special customer situations, Datalogic does not plan to extend the 'last order date' beyond the end of March, 2016. If you have any special customer situations that require support beyond this date, please contact the Moses Tam (product manager) as soon as possible.

Service and Technical Support

Datalogic will continue honor the product Warranty and Service Support agreements for 5 years after the last ship date of the product.
