

ELF™ PDA OBSOLESCENCE NOTICE

After years of successful applications in different markets worldwide such as Retail, T&L, Manufacturing and Healthcare, Datalogic is now announcing the obsolescence of the Elf™ PDA product line including all special variants, effective **March 31, 2017**.

Replacement Product Recommendation

For customers who require a keyboard-based PDA form factor, Datalogic recommends the **Lynx™ PDA** as the logical replacement. It is a compact device with an attractive price and performance, rugged and reliable, ideal for both indoor and outdoor applications.

If the Windows® CE operating system (Wi-Fi model only) is needed for application compatibility, Datalogic recommends the **Skorpio™ X3** mobile computer. It is a rugged mobile computer particularly suitable for retail environments, with superior ergonomics, balance and handling.

The table below shows the Elf part numbers going obsolete and the recommended replacement part numbers (Lynx or Skorpio X3):
