

# Autotrack Mobile ADMS

Mark your attendance  
and get alert now!

## Introduction

Attendance marking by using finger print device is one of the trend for today corporate and organization. We aware of this trend and we enhance on what we are having now. Autotrack mobile ADMS now come with the latest feature to alert you once your attendance is capture with our flash card, finger print or face detected devices. Immediately after the data posted to Autotrack ADMS server, your mobile phone will alert you on the attendance.

## Where is being use?

### School and College

Parent and Student attendance monitoring. For most of the school's attendance taking, Autotrack enhance it by allowing parent to download our Autotrack Mobile ADMS. Once their kid reach school and marked their daily attendance, the parent phone will show the children Name, Attendance Time and machine location. This give the peach of mind for the parent on their children location.

### Multi branch staff attendance

Staff assign to different branches of location for certain event or occasion happening today for most of the corporate. Staff consignment, staff borrowing and staff allocation become more and more popular for today business. Supervisor need to make sure the attendance is the most important task and most tedious task for him/her every day. Instructing the worker to do so become an easy to do but difficult to implement activity. With Autotrack Mobile ADMS, you can complete this with just a second. The never give excuse mobile ADMS, alert become so much easy to be done.
